

GEBERIT FLUSHPLATES  
**CHOICE IS  
IMPORTANT**

DESIGN  
MEETS  
FUNCTION

# MAKE IT YOUR OWN

**It's not just any bathroom, it's your bathroom.** You select the tiles that reflect your style. You refuse to compromise in the selection of the tap for your washbasin. And here you will find just the right flush plate for the WC to give your bathroom the crowning touch and pamper you with comfort functions. This is because Geberit combines visual elegance with innovative functions.

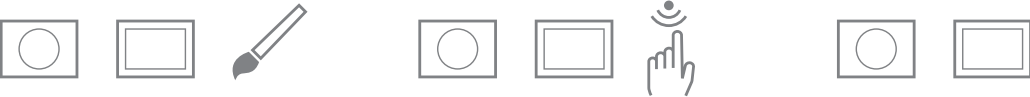

## WHY NOT TRY OUT YOUR OWN DESIGNS?

We have included actual-size illustrations of various flush plates in the brochure for you. Fold back the left-hand side of the brochure, hold the design up to the wall and let your imagination run wild! Use these actual-size samples to select the flush plate that appeals to you.

SWISS MADE QUALITY & FUNCTION MEETS  
BEAUTIFUL DESIGNS & MATERIALS

GLASS, METAL, STONE - GEBERIT HAS THE  
PERFECT DESIGN FOR YOU AND THE QUALITY  
TO LAST A LIFETIME.\*

\* Thanks to Geberit 50 year spare part guarantee.

CUSTOMER SPECIFIC FINISH

# HARMONIOUSLY COORDINATED

When taps and flush plates are perfectly coordinated, they open up entirely new dimensions in bathroom design. Customer specific finishes allow Geberit Sigma40 flush plates and Type 40 urinal covers to blend seamlessly with the overall aesthetic of bathroom fittings from leading manufacturers. The wide variety of colours on offer creates endless possibilities for on-trend bathroom design. Perfectly coordinated down to the last detail – from the WC to the washbasin to the urinal.

Bespoke design with  
cohesive surface finishes  
and colours.

# GEBERIT DESIGN FAMILY

**Seamless design.** Toilet and urinal flush controls featuring a coordinated design: the result is a single design thread running through the whole washroom. The flush actuations for urinals, which match the flush plates for toilets, can either be actuated by hand (pneumatic) or via touchless technology (electronic, by means of infrared detection).

# FOR **ANY APPLICATION**

**So that everything matches:** used in combination with the matching concealed cistern, Geberit flush plates in the Sigma range cover a wide variety of applications and comfort functions. The Geberit flushing system Omega offers great flexibility and particularly small flush plates. Both flushing systems offer tool-free final installation and guaranteed spare parts availability for 50 years.

You therefore have a wide selection of both Geberit flush plates and reliable Geberit installation elements for installation behind the wall. And Geberit flush plates bear the name of the suitable cistern so that you can be certain that everything will match.

112 cm

- Construction height of 112 cm
- Front actuation
- Barrier-free and height-adjustable models available
- Odour extraction (recirculating air / exhaust air)
- Suitable for Geberit remote flush actuation

**Geberit Sigma concealed cistern**

82 cm

- Construction height of 82 cm
- Front and top actuation
- Particularly small flush plates
- Suitable for Geberit remote flush actuation

**Geberit Omega concealed cistern**

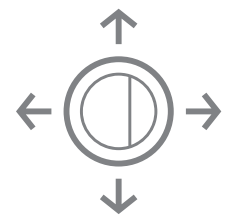

# CHOICE IS IMPORTANT

**Intelligent functions from Geberit.** If you can flush your toilet without touching it, if elegant colour effects add atmospheric moments to the time you spend in your bathroom, or if unpleasant smells are efficiently extracted even before anyone notices them, then this means your plumber has installed state-of-the-art Geberit sanitary convenience in your new bathroom. And because durability and reliability are as much a part of Geberit as good design, you will enjoy your selection for years to come.

→ Geberit Sigma50, plate and button: chrome, cover plate: white → Geberit One wall-hung WC, TurboFlush flush technology → Geberit wall drain

## GEBERIT REMOTE FLUSH ACTUATIONS MORE CONVENIENT BY FAR

The remote control for effortless flushing can also be installed offset, for example next to the toilet.

**The optimal solution.** Regardless of the construction situation, using a remote flush button can be the right choice. For instance, in order to locate the flush button at a different location, if the design for the WC flush control calls for small but elegant, or if using a Geberit Omega concealed cistern with low construction height causes forceful contact between the WC lid and the front actuation. For such cases, Geberit offers various remote flush buttons with pneumatic force transmission, which can be placed anywhere within a 1.70 m radius of the concealed cistern.

### QUITE DISCREET IN FACT

Available as they are in a variety of colours and product materials, the Geberit cover plates open up new design opportunities. A tile-bearing version is available for a particularly discreet appearance.

←

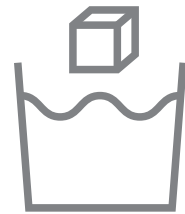

### TOUCHED A THOUSAND TIMES

The pneumatics of the Geberit remote flush buttons type 01 and type 10 have been tested for years of stress. The technology is based on air pressure (not on electrical current).

→ Geberit iCon wall-hung WC → Geberit remote flush actuation type 10 touchless, matt black → Geberit Sigma50, black chrome

# FRESH AIR FOR EVERYONE

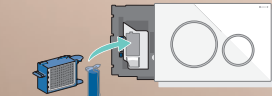

**Insert for cistern stick:** This optional insert is suitable for most Geberit flush plates in the Sigma range and can even be installed by a plumber at a later date. It guides the in-cistern stick down a chute to a fixed position below the surface of the water in the cistern. Once there, the stick dissolves slowly and ensures hygiene and cleanliness in every flush throughout the entire WC ceramic appliance, as well as providing a fresh fragrance.

**1** It doesn't get any simpler than this: pull the flush plate aside. **2** Place the in-cistern stick into the insert behind the plate. **3** Close the plate and enjoy the freshness with every flush.

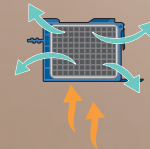

**Unpleasant odours in the toilet are a thing of the past:** The Geberit DuoFresh module removes the bad air directly from the WC ceramic appliance, purifies it using a ceramic honeycomb filter and then returns it to the room. Thanks to a proximity sensor, the odour extraction always switches on automatically as soon as someone sits down on the toilet. Benefit from additional comfort thanks to an LED orientation light and the insert for in-cistern sticks. The Geberit DuoFresh module can be easily installed in any Geberit Sigma cistern and can be combined with almost any flush plate from the Sigma range.

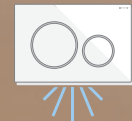

## ACCESSIBLE

The ceramic comb filter and insert for in-cistern sticks are within easy reach located behind the actuator plate.

## EFFICIENT AND QUIET

The ceramic comb filter purifies the air thoroughly. The quiet fan conveys the cleaned air back into the room.

## LED ORIENTATION LIGHT

An additional benefit offers a built-in LED orientation light. Just below the actuator plate a soft glow will guide you the way to the WC – simply perfect.

Unpleasant odours are removed right at the source.

# TECHNOLOGY AND DESIGN PERFECTLY MATCHED

**All components in the Geberit WC system match perfectly.** As a result, they offer convincing added value in the system. End customers appreciate the outstanding flush performance and the whisper-quiet technology, which make the toilet quieter and easier to clean. Plumbers are impressed by easy and flexible installation. The high quality and exceptional warranty services ensure that you can enjoy your new WC for a long time to come.

## The Geberit WC system: Five system benefits

EASY INSTALLATION

OUTSTANDING FLUSH PERFORMANCE

LOW-NOISE FLUSHING SYSTEM

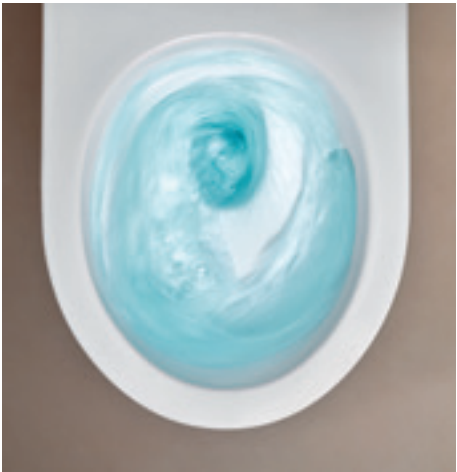

COMPREHENSIVE DESIGN OPTIONS

PROVEN QUALITY AND LONG-TERM  
WARRANTIES

**The Geberit WC system.** Rely on unique technology combined with a modern look and clever features.

↑  
**OUTSTANDING FLUSH PERFORMANCE**  
The asymmetrically designed, completely rimless inner bowl guides the water through the sanitary ceramic with exceptional flushing-out performance. The result is high performance and easier cleaning.

←  
**EASY INSTALLATION**  
The installation technology of the Duofix concealed cisterns from Geberit is characterised by a number of well thought-out details. Short working times and flexible customisation options speed up and simplify WC installation in any bathroom.

→  
**LOW-NOISE FLUSHING SYSTEM**  
The targeted water guide of the TurboFlush flushing technology and hydraulically optimised flushing technology behind the wall significantly reduce water noise. This brings more peace and quiet into the bathroom.

→  
**PROVEN QUALITY AND LONG-TERM WARRANTIES**  
All components of the Geberit WC system are carefully developed and extensively tested in our own laboratories. Above-average warranty services provide long-term security.

**COMPREHENSIVE DESIGN OPTIONS**  
The Geberit WC system includes a large selection of high-quality flush plates in many materials, colours and surfaces and in round and square shapes.

# TODAY'S TOILETS ARE MOVING WITH THE TIMES

**Electrical connections now come as standard.** After all, you expect your bathroom to reflect your changing needs as well as the lifestyle trends that the future is likely to bring. In Geberit WC installation elements, you'll find everything completely prepared for the future – so it can accommodate any changes you want to make in the future, like retrofitting a Geberit AquaClean shower toilet, a convenient odour extraction unit or installing the coloured LED strips that come with the touchless Geberit flush plate Sigma80.

1. Geberit DuoFresh module with integrated orientation light. Suitable for several flush plates of the Sigma series.
2. Touchless Geberit flush plate Sigma80, glass reflective.
3. The Geberit AquaClean Mera shower toilet with outstanding design and numerous comfort features.
